Sir:

In response to the Office Action dated May 18, 1998, please amend the  
specification as follows:

IN THE CLAIMS:

Please amend the claims as follows:

38. (Twice Amended) In an information access system, a method for creating a  
local information label for use in controlling access to information which has associated  
therewith an information label related to the content of the information, the method  
comprising the steps of:

providing to a user a plurality of category labels each identified by a  
standardized description of a particular type of information content [including at least one  
of violence, sex and foul language];

prompting the user to input a value which is indicative of an amount of said  
information content into the information access system for each of the category labels;
